## Sequoits Meet Rams In Homecoming Event Here Saturday Night

Game at Ela-Vernon Lost; But Sophomores Win 19 to 13

Antioch High Sequoits will be out to give a homecoming crowd a satisfactory day Saturday through defeat of the Grayslake Rams who will be guests for the occasion.

Both the varsity and the sophomores will see action under the lights and two good games are assured.

The Rams started out poorly this season, but have been improving rapidly and can be depended upon to make the game a close and exciting one. They lost to Grant Saturday 7 to 6.

Antioch will try to bounce back into the victory column after losing to the Ela-Vernon Bears last Saturday night at Lake Zurich. The score was 13 to 7.

The Sequoits were ahead 7 to 6 most of the game but in the last quarter Ela scored. Although Antioch in the last few minutes of play pounded on the door of the Bear goal, the Sequoits were unable to reach pay dirt and twice lost the ball on downs.

The sophomores, however, avenged the defeat on Monday afternoon by defeating Ela-Vernon sophis 19 to 13. The Pappooses were behind at the half 13 to 6, but came back strong in the third quarter to put over the winning touchdown. The Cubs were held scoreless in the last half.

## Perfect Fire Drills Conducted by Schools Chief Simonsen Says

Fire Chief Edgar Simonsen said he was more than pleased with the fire drills of the schools during Fire Prevention Week.

"There was no comparison between the fire drills of last week and those of a few years ago," he said.

The Grass Lake school was emptied in 30 seconds and the Channel Lake school had a record nearly as good.

The Antioch grade school and Antioch high school students left the building in 1 minute and 15 seconds and St. Peter's in 1 minute and 45 seconds.

Simonsen found students so quiet in the new building when he sounded the alarm that he wondered at first whether school was in session or not. They filed out in orderly fashion and with a minimum of noise, he said.

The fire chief said his men inspecting business houses found them in pretty good shape.

## Warn Used Car Buyers Of Confidence Games

Local automobile firms are warning used car buyers to beware of strangers who are using confidence game methods in extorting large sums of money by getting purchasers to sign blank bills of sale and then inserting amounts more than agreed upon.

A Chicago dispatch to the Automotive News says.

"Two used car men have been held to the grand jury by Judge Harold O'Connel in charges of conspiracy to commit a confidence game.

They are Irwin Davis, said to be of Liberal Motors, and Marvin Margolius, described as a salesman for the firm.

The complaint was brought by Harold West, who said he agreed to buy a car from Liberal for \$990.

## THE RIGHT-TO-WORK LAWS

Fourteen states have passed right-to-work bills, Alabama being the latest. These bills vary in details, but all of them provide, as the Los Angeles Times expressed it, "that no worker may be denied employment or discriminated against because he is or is not a member of a union. The right to join a union is thus protected, and the corollary right not to join is also protected."

Both these rights are vitally important to free labor, union or nonunion. Under the closed shop or the union shop, the individual is powerless—if he is to hold his job and support his family he must stay in the union and pay dues whether he wants to or not, and regardless of what he may think of the caliber and policies of union officials. Under the right-to-work idea on the other hand, where union membership is voluntary, union officials must please their members and give good service if they are to maintain the organization and hold their own jobs.

In signing Alabama's bill, Governor Persons pointed out that there are many national and regional organizations which have performed signal service for veterans, farmers, business groups, and others—and that in no case is membership compulsory. Then he said, "In my opinion, all of our labor unions will be far stronger and the members in them will have a far greater interest and respect in the organization if the membership can be shown to be desirable and they are not forced to join." In short, both fundamental individual rights and the cause of sound unionism itself are given basic protection in the right-to-work bill.

## SAFETY HAS TO BE EARNED

A short time ago three American railroads were given the coveted E. Harriman Memorial Gold Medal awards for the best safety records for 1952, and eleven others were presented with "certificates of commendation." This served to highlight the amazing

## THE ANTIOTH NEWS, ANTIOTH, ILLINOIS

THURSDAY, OCTOBER 15, 1953

safety record established last year by the railroad industry as a whole.

Here are some of the achievements: Not a single railroad passenger lost his life in a train collision or derailment. Passenger fatalities from falls from trains and the like were fewer in number and in frequency than in any other year of record. Fewer employees were fatally injured than in any of the preceding 64 years, for which statistics are available. The number of fatalities due to highway grade crossing accidents was the second lowest for the past 35 years. Even fatalities to trespassers illegally riding the trains or walking the tracks hit a new low.

How and why did all this happen? Obviously, it wasn't just because the gods of chance smiled on the railroads. In railroading, as in most other things, safety usually has to be earned. Some 40 years ago the railroads launched an intensive organized program, and it has paid off handsomely. Better equipment, better systems of control, day in and day out training of employees—these are the kind of factors that have made the railroads almost unbelievably safe.

## AN EXTRAVAGANCE WE CAN'T AFFORD

It isn't always wise to buy a commodity at an excessively low or "distress" sale price.

Does that seem illogical to you? Then a recent development may make you change your mind.

The coal industry, for a number of reasons, has been in the financial doldrums. Profits have been close to nonexistent, and in many cases companies have been forced to close. And some sellers of coal, most of whom are in the business on a transient basis and have no great interest in the long-term welfare of the industry, have made offerings at ridiculous prices.

It might logically be supposed that coal buyers would welcome this situation with open arms. But luckily for America's future energy requirements, not all of them do. A short time ago the fuel agent of a leading electric utility which uses huge quantities of coal in its generating plant said: "It is essential to have a wider and fuller understanding of the dependence upon the future of the coal industry of the future of this country. Without financial health, no industry has a future. The purchase of coal below the profitable level is not an economy, as some believe. It is an extravagance which the free enterprise system cannot afford."

We must have coal—now and tomorrow. And only a healthy industry can be trusted to keep on providing us with the coal we need.

**Drilling Not Started  
On Village Water Well**

Although the Layne-Western Co. of Aurora signed its contract to drill a deep water well for the village two weeks ago, no move has been made by that firm to start work on the well.

Michael Reimers of the Inland Lakes Sewer & Water Co., who has the contract to install the sewer and water mains, has delivered the pipe and is awaiting fittings to start

work next week.

Work on the water mains is based on the assurance that a 400 gallon well will be provided by the Aurora firm which had tests of the place on which the drilling will take place. The company said that it could start drilling two or three weeks after the contract was let, but it delayed signing the contract for a few weeks, it is said.

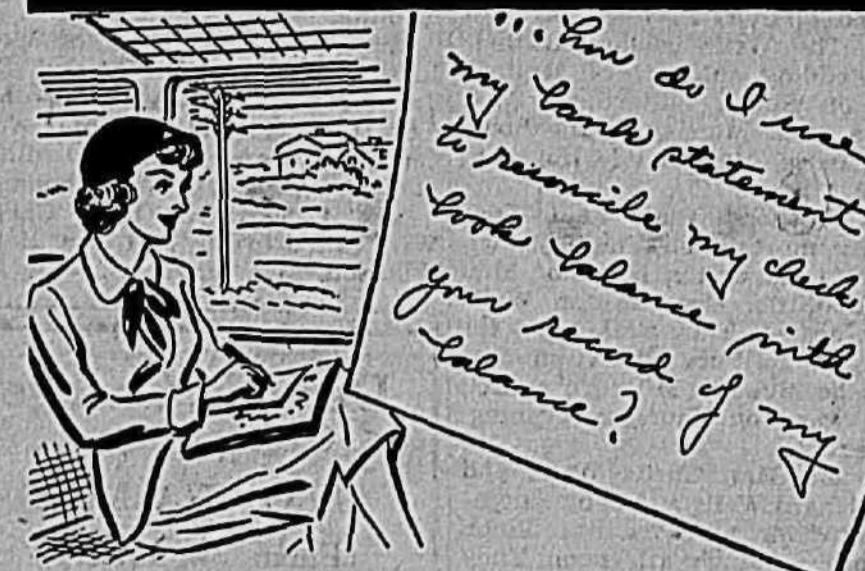

Weather has little to do with the sinking of the well or laying of the water and sewer mains, and it is presumed that the work will be completed yet this fall.

Sgt. William R. Vos, of the 3rd Marine division will be released from duty October 16, and will return to Antioch early next week. His wife and infant daughter, Diane will accompany him. Sgt. Vos is the son of Mr. and Mrs. Roman Vos of Antioch. He has been stationed in California and has served two years.

Ralph Petty, of 1038 Spafford st., Antioch, is among the 250 freshmen enrolled at Carroll College this year. The college began its 108th year on September 17 with 544 students registering, for an increase of 16 per cent over the 458 enrollment of last year.

Petty is a graduate of Antioch Township high school and was active in Band and Track. He is a son of Mr. and Mrs. William Petty.
